Web Resources

Alliance to Save Energy (ASE)
www.ase.org
A coalition of business, government, environmental and consumer leaders who promote the efficient and clean use of energy.

Center of Excellence for Sustainable Development
www.sustainable.doe.gov
The U.S. Department of Energy's source for information and services on how your community can adopt sustainable development as a strategy for well being.

Energy Efficiency and Renewable Energy Network (EREN)
www.eren.doe.gov
The U.S. Department of Energy's source for information about renewable energy and energy-efficient technologies.

Environmental Protection Agency's Energy Star Program
www.energystar.gov
Look for products, homes and buildings with the ENERGY STAR® label—it's the easy way to save money and the environment.

National Renewable Energy Laboratory
www.nrel.gov
One of the U.S. Department of Energy's national laboratories, leads the nation toward a sustainable energy future by developing renewable energy and energy-efficiency technologies.

Other Web Resources Include:

American Council for an Energy-Efficient Economy
www.aceee.org
A non-profit organization dedicated to advancing energy efficiency as a means of promoting both economic prosperity and environmental protection.

American Solar Energy Society (ASES)
www.ases.org
A national organization dedicated to advancing the use of solar energy for the benefit of U.S. citizens and the global environment.

American Wind Energy Society (AWEA)
www.awea.org
Advocates the development of wind energy.

Geothermal Heat Pump Consortium
www.ghpc.org
Works to reduce the barriers to wide-scale geothermal heat pump technology.

Solar Energy Industries Association (SEIA)
www.seia.org
The national trade organization of photovoltaics and solar thermal manufacturers and component suppliers.

Produced for the U.S. Department of Energy by the National Renewable Energy Laboratory, a DOE national laboratory
