The Office of Energy Efficiency and Renewable Energy's Information Center provides a single point of contact for the public to access EERE's broad array of tools, information, and partnership opportunities.

EERE and its programs maintain an extensive portfolio of resources to assist citizens, businesses, industry, federal facilities, state and local governments, and others in improving energy efficiency and expanding the use of renewable energy. The Information Center offers American consumers a free central point of contact that provides easy access to these and other EERE products and services by staff familiar with EERE's wide range of activities. Additionally, EERE has launched a comprehensive online library of many of its communications products that will allow customers to order these materials directly from the Information Center.

EERE Information Center Core Services

- Provides easy access to courteous, professional staff with broad knowledge of energy efficiency and renewable energy in general, and of the EERE portfolio in particular, who refer citizens to the most appropriate EERE resources and fulfill requests for EERE products
- Links more advanced technical and programmatic inquiries to relevant energy experts on staff

Advantages

- Reduces cost to taxpayers
- Assesses trends to continuously enhance EERE products and services

Fulfillment

- Customers with Internet access will often be given information and direction to immediately find and download the materials they want on the EERE Web site
- Requests for EERE materials available in hard copy will be mailed promptly to locations within the United States

EERE's Information Center distributes materials for all of EERE's portfolio:

- Biomass
- Fuel Cells
- Hydrogen
- Geothermal
- Solar
- Water
- Wind
- Homes
- Commercial Buildings
- Vehicles and Fuels
- Industry
- Federal Energy Management

EERE's Online Publication and Product Library

eere.energy.gov/library

- Contains a comprehensive, searchable online database of EERE communication products
- Provides convenient access to EERE publications so customers can immediately download those they need
- Allows direct ordering of available hard copy publications from the Information Center

Access

- Call the EERE Information Center toll-free at 1-877-EERE-INFO (1-877-337-3463)
- Use the online request form at eere.energy.gov/informationcenter
- E-mail the Information Center at eereic@ee.doe.gov
