

NATURAL GAS

TRANSIT USERS GROUP

JOIN US FOR THE NEXT NATURAL GAS TRANSIT USERS GROUP (TUG) MEETING

October 26-28, 2005

Hosted by the Gwinnett County Department
of Transportation in Lawrenceville, Georgia
(Metro Atlanta area)

Discussion topics will include how energy and highway bills affect transit, recent fuel pricing trends, working with emergency personnel and first responders, lessons learned from real-life natural gas vehicle incidents, new CNG cylinder safety program and training scholarships, CNG compressor packagers, and much more ...

Tour Gwinnett County's CNG bus facility. Learn how time-fill fueling reduces its compressor capacity needs and station costs, and provides flexibility in case of compressor failure.

For more information and an agenda,
see www.nrel.gov/vehiclesandfuels/ngvtf/tug_meeting.html,
or contact Hank Seiff at hseiff@cleanvehicle.org or 703-534-6151.

Learn about fire and police department training for natural gas transit buses.

Tour the Cobb Community Transit's CNG refueling facility in Marietta, Georgia. See how they designed this low-cost facility with little or no underground piping for easy maintenance and inspection.

U.S. Department of Energy
Energy Efficiency and Renewable Energy

Bringing you a prosperous future where energy is clean, abundant, reliable, and affordable

A Strong Energy Portfolio for a Strong America

Energy efficiency and clean, renewable energy will mean a stronger economy, a cleaner environment, and greater energy independence for America. Working with a wide array of state, community, industry, and university partners, the U.S. Department of Energy's Office of Energy Efficiency and Renewable Energy invests in a diverse portfolio of energy technologies.
