Appendix B, FINAL BMWC et al Kayenta Mine Permit Renewal Comments 10 27 11 (2)	Appendix B	OSM should deny Peabody's permit renewal request because it fails to satisfy SMCRA. At the least, OSM should rescind the FONSI and conduct further inquiry and analysis in order to satisfy NEPA, NHPA, and the ESA. Granting the permit renewal will have a significant adverse impact on the environment and on traditional cultural resources and requires consultation with FWS.	Jihan Gearon, Taylor McKinnon, Anna M. Frazier, Andy Bessler, Marshall Johnson	2011	11/3/2011	Interior Documents
Appendix C, FINAL BMWC Comments on Renewal Permit	Appendix C	Peabody's permit application does not currently meet the requirements of SMCRA or the ESA. Additionally, OSM must comply with NEPA in issuance of any permit renewal.	Brad A. Bartlett	2010	11/3/2011	Interior Documents
FFA NGS Final Letter April 1 2011	Letter	Where costs associated with improving air emissions standards - driven in large part by concerns to protect air clarity - could put some farmers out of business. The Family Farm Alliance strongly urges the House Water and Power subcommittee to recognize the potentially catastrophic economic, social and environmental impacts these actions from the EPA may have on the agriculture industry in Central Arizona. CBO analysis of AWSA	Analysis	S. 437 would approve and ratify the Gila River Indian Community Water Rights Settlement Act, amend the Southern Arizona Water Rights Settlement Act of 1982, and affirm the right of the San Carlos Apache Tribe to make future claims for water rights. CBO estimates that enacting S. 437 would increase direct spending by \$445 million over the 2005-2014 period. Additional direct spending would continue long after 2014 under the act.
