

## Project Updates

### In-Person Steering Committee Meeting Scheduled

The next (in-person) UMP Steering Committee meeting will occur Monday, January 30th in Chicago, IL at the Commonwealth Edison Headquarters.

- If you have not yet RSVP'd, please do so now by sending an email to: [chuck.kurnik@nrel.gov](mailto:chuck.kurnik@nrel.gov)
- For more information regarding this meeting, please refer to the [travel guidance](#) posted on the UMP extranet site.

### Residential Lighting Protocol Update

The draft residential lighting protocol is in its final stages of review by the Technical Advisory Group. Once the final review is complete, the protocol will be posted to the UMP extranet site, along with a protocol review form.

At that time, we will send steering committee members another notice, requesting that they review the protocol and complete the protocol review form.

### Website Updates

As mentioned in our previous update, NREL has published a website for Uniform Methods Project members to view documents, access meeting information, and eventually to help with protocol reviews: [www.nrel.gov/ump/](http://www.nrel.gov/ump/).

The site has been updated with the following resources:

- [Steering committee meeting notes](#)  from the November 30, 2011 meeting
- [Net-to-Gross Technical Advisory Group notes](#)  from the December 19, 2011 conference call

[Residential lighting technical expert presentation](#)
