

## **New PCR Being Developed 18 October 2010**

## **Windows for Buildings**

IERE is beginning the process of developing a product category rule for windows in buildings. The process is funded by the National Renewable Energy Laboratory. The PCR will be developed through the combination of a workshop 7-8 December 2010, and via teleconference and is anticipated to take no more than six months, beginning to end.

The UNSPSC Code for this product is 30171600, and includes:

- 30171604 Double hung windows
- 30171605 Single hung windows
- 30171606 Casement windows
- 30171607 Horizontal slider windows
- 30171608 Tilt or transom windows
- 30171609 Fixed windows
- 30171610 Bay windows
- 30171611 Bow windows
- 30171612 Projected windows
- 30171613 Window walls
- 30171614 Window screens
- 30171615 French windows

Interested parties are expected to read applicable documents, comment and participate in at least three conference calls, and if you are not familiar with LCAs and EPDs, to come up to speed by first watching the webinars on those topics at the EPA website:[http://yosemite.epa.gov/R10/ECOCOMM.NSF/Programs/lca\\_epd](http://yosemite.epa.gov/R10/ECOCOMM.NSF/Programs/lca_epd)

To become part of the PCR development committee, you must sign a disclosure of conflicts of interest form. Please contact us at [rita@iere.org](mailto:rita@iere.org)
