JANUARY

Solar Installations, Projects

UK Solar 1-30-06

Huddersfield is leading the UK's drive to produce green energy. Kirklees Council has teamed up with the European SunCities scheme to install solar panels on 250 council houses. Solar panels are also in use at the council care homes and on some private housing. Story through Solarbuzz at:

<http://news.bbc.co.uk/1/hi/england/bradford/4661448.stm>

SunCities: <http://www.suncities.nl/>

WorldWater & Power Contract 1-27-06

WorldWater & Power announced that it has signed a \$109,824 contract to build and install a solar electric power generation system for Quest Environmental & Engineering Services in Clinton, New Jersey. Story at:

<http://www.primezone.com/newsroom/news.html?d=92956>

WorldWater & Power: <http://www.worldwater.com/>

Borrego Solar Systems 1-27-06

Borrego Solar Systems, Inc. has recently completed the design and installation of two PV solar power systems, for a commercial workplace and a residential complex, on the west side of Berkeley, California. Story at RenewableEnergyAccess:

<http://renewableenergyaccess.com/rea/market/business/viewstory?id=42421>

Borrego Solar: <http://www.borregosolar.com/>

Solar at Florida Residential Tower 1-27-06

Cala Corporation announced it has hired the architectural firm of Michael A. Penny to plan and design a new riverfront residential tower in Florida. The Florida Central University Solar Center of Cape Canaveral will be advising the company on design and implementation of solar panels and fuel cells. Story at:

http://home.businesswire.com/portal/site/google/index.jsp?ndmViewId=news_view&newsId=20060127005172&newsLang=en

FSEC: <http://www.fsec.ucf.edu/>

Sonoma County Solar, California 1-27-06

Per this article, the Sonoma County Water Agency plans to move forward on the installation of an \$8 million solar panel project at the wastewater plant owned by the Sonoma Valley Sanitation District.

NRG Systems Renewable Electricity 1-25-06

David Blittersdorf, NRG chief technology officer, says with their investment in renewable energy, the company has in effect prepaid its energy bill. A PV system and wind turbine provide three quarters of the manufacturing and office building's electricity needs. Story at: <http://www.marketwatch.com/tools/quotes/newsarticle.asp?guid=%7bf7045EDF-13E4-42DC-8F2D-8ACE7B9FEF3F%7d&siteid=mktw&dist=nbk&symb=>
NRG Systems: <http://www.nrgsystems.com/>

Solar Integrated Projects / CFO 1-25-06

Solar Integrated Technologies, Inc. announced that it completed 39 industrial solar roofing projects in 2005, bringing the company's total installed projects to 58, aggregating more than 5 MW of installed generating capacity. Story at Solarbuzz: <http://www.solarbuzz.com/News/NewsNAPR606.htm>

Solar Integrated Technologies, Inc. announced that John M. Palumbo has been appointed Chief Financial Officer. Press at: <http://www.marketwatch.com/tools/quotes/newsarticle.asp?guid=%7b2A79B71F-F833-4986-813B-1ABA779D7263%7d&siteid=mktw&dist=nbk&symb=>

Treasure Island Development, California 1-6-06

Development plans for Treasure Island include incorporation of renewable energy. Said Jay Wallace, a partner with San Francisco-based Kenwood Investments, the project will be a model for "smart development for years to come." Planners repositioned street grid to give the buildings a more southerly stance, thus the structures, clad in photovoltaic glass, will be better positioned to collect sunlight and generate electricity. A PV glass roof will also protect the ferry terminal and the island's main retail boulevard. More at: <http://www.timesleader.com/mld/timesleader/news/nation/13554753.htm>

Renewable Energy Summit, Colorado 1-12-06

Colorado is well-positioned to be a renewable energy leader in the U.S. and is doing well in some areas while noticeably lagging in others, said experts at a U.S. Senator Ken Salazar-sponsored summit. The day-long event was attended by experts from a range of renewable energy industries and by dignitaries such as former Senator Tim Wirth, Denver Mayor John Hickenlooper, and industry officials such as Shell Oil President John Hofmeister, BP Solar President Lee Edwards and Public Service Company of Colorado President Patricia Vincent, as well as the president of the Solar Energy Industries Association, Rhone Resch. Asia-Pacific Partnership Commitments 1-12-06

The Asia-Pacific Partnership on Clean Development and Climate in Sydney brought together 6 countries in the debate over global warming. In a communiqué at the end of the meeting, the 6 countries said they would not cut back on the use of coal, oil and gas as demanded by the Kyoto Protocol; instead the delegates announced a new plan to promote renewable energy sources and new ways to use coal. Australia said it would contribute \$75 million to the plan, and the U.S. said it would seek more than \$50 million. Energy in the U.S. Northwest [NWCurrent] 1-31-06

Per this article, the Northwest is ripe to emerge as an energy "power block". The region has "unparalleled" reputations in both environmental consciousness and entrepreneurial culture, making it a model breeding ground for scientific breakthroughs in renewable and smart energy. The Northwest Energy Technology Collaborative, a regional alliance of 5 U.S. states and 2 Canadian provinces, is working to leverage this natural aptitude and position the Northwest as a world leader in energy innovation. See "Energy Innovation: Branding the Northwest" at:

<http://www.nwcurrent.com/renewable/2219791.html>

Northwest Energy Technology Collaborative: <http://www.nwetc.com/>

Solar Decathlon Experience 1-31-06

See the article "Solar house builder finds N.J. a national leader" at:

<http://www.app.com/apps/pbcs.dll/article?AID=/20060129/OPINION/601290361/1030>. Said Scott Horowitz, a graduate student at the University of Colorado who grew up in Marlboro, "After the decathlon was over, I realized how the experience has changed the way I think. Before I joined the University of Colorado solar house team, like most other people in New Jersey, I paid little to no attention to where PSE&G and every other utility company gets its power. ... Now I understand that although solar energy technologies have been part of the United States energy policy for nearly 30 years, they have yet to emerge as a prominent element of the energy infrastructure. That is the reason legislators and regulators have to lead the way. New Jersey is the shining example of how that can happen".

Silicon Shortage 1-30-06

U.S. Congress In Action

Protecting America's Competitive Edge Legislation 1-27-06

Several Senators have introduced the "Protecting America's Competitive Edge" (PACE) Act which incorporates 3 bills that would increase federal investment in math and science education, basic science and energy research, and R&D tax incentives. The bipartisan effort was crafted to implement the 20 recommendations outlined in "Rising Above the Gathering Storm: Energizing and Employing America for a Brighter Economic Future", a National Academies report. See Senator Domenici's website at:

<http://domenici.senate.gov/news/record.cfm?ref=1&id=250731>

Competitions

Solar Decathlon Teams, 2007 1-11-06

The U.S. Department of Energy announced that 20 teams have been selected to compete in the 2007 Solar Decathlon. Said Energy Secretary Samuel Bodman, "The next generation of leaders will have an opportunity to shine as they compete in the 2007 Solar Decathlon. Supplying enough clean, affordable energy to fuel the world's growing economies is one of the great challenges we will face over the coming years. By helping expand the use of solar energy technologies, the participants will help meet that challenge". DOE press release at: <http://www.energy.gov/news/2938.htm>
For coverage of the Decathlon at DIY Network, see: http://www.diynetwork.com/diy/specials/episode/0,2046,DIY_14360_40620,00.html

President Bush's Advanced Energy Initiative 2-1-06

The Advanced Energy Initiative was announced as part of President Bush's State of the Union message. Included is "The President's Solar America Initiative: The 2007 Budget will propose a new \$148 million Solar America Initiative – an increase of \$65 million over FY06 – to accelerate the development of semiconductor materials that convert sunlight directly to electricity. These solar photovoltaic 'PV' cells can be used to deliver energy services to rural areas and can be incorporated directly into building materials, so that there can be future 'zero energy' homes that produce more energy than they consume." See: <http://www.whitehouse.gov/news/releases/2006/01/20060131-6.html>
The State of the Union address can be found at: <http://www.whitehouse.gov/stateoftheunion/2006/> in which the President says, "So tonight, I announce the Advanced Energy Initiative -- a 22-percent increase in clean-energy research -- at the Department of Energy, to push for breakthroughs in two vital areas. To change how we power our homes and offices, we will invest more in zero-emission coal-fired plants, revolutionary solar and wind technologies, and clean, safe nuclear energy."

Great Wall Renewable Energy Conference & Exposition, Beijing 2-21-06

The Chinese government has announced a new annual all-renewable energy conference to take place 24-27 October 2006 in Beijing. The conference chairman is Shi Dinghuan, Counselor, the State Council, and President of the Chinese Renewable Energy Industry Association. The European co-chairman is Wolfgang Palz of the World Council for Renewable Energy, and the U.S. co-chairman is Michael Eckhart of the American Council On Renewable Energy. The lead organizer is Qin Haiyan of the Chinese Wind Energy Association. Dan Arvizu, Director of NREL, is a vice-chairman of the event. A large number of Chinese, US and European agencies and NGOs have committed to support the event, which will include a technical conference, and a trade show exhibition. See ACORE at: <http://www.acore.org>

Manufacturing

ErSol Agreement for Thin-Film Production Equipment 3-30-06

ErSol has signed a letter of intent with UNAXIS S.A. to purchase equipment for the production of thin-film modules. In the period up to 2008, the ErSol Group is planning to develop, subject to milestones, production capacities of 40 MWp per annum. Said Chairman of the Management Board, Dr. Claus Beneking, "The expansion of the technological core competence to include this silicon-saving thin-film technology is part of ErSol Group's vigorous growth strategy". PV Concentration Systems, Spain [Antonio Luque] 3-29-06

Puertollano, with its factories for the production of wafers and PV modules, is becoming an increasingly important center in the Spanish development of PV technology. A new research center – the Institute of Photovoltaic Concentration Systems – has been added. In various places in Castilla La Mancha, PV concentration plants with a total of 2.7 MW using 3 or 4 concentration technologies will be set up. These plants will allow the selected companies to be able to move from the current state of prototypes-in-development to the manufacturing pilot line, and to know the problems and costs of installation in the field, all of which is necessary for the commercial deployment of these technologies. For the announcement March 8 by Prof. Antonio Luque, see: <http://www.ies.upm.es/> (then click on Job Offers, then click on Additional R&D Center Information)

Mile-Wide Sheets of Solar Cells 3-17-06

Time Warner's Business 2.0 (B20 magazine) highlights Space Island Group's plan for space-based solar energy fields. According to B20, early in the next decade SIG will begin placing huge, mile-wide sheets of solar cells in Earth orbit. The NASA-designed structures, called solar power satellites, will convert sunlight into electricity, and then use weak microwave beams to send that energy down to antennas on the Earth. More on this concept at:

<http://www.marketwatch.com/News/Story/Story.aspx?guid=%7B5B3A377C%2D20DA%2D4749%2DAE0B%2DE499489F64E0%7D&siteid=mktw&dist=nbk&symp=>

Meetings, Gatherings, Conferences

International Advanced Photovoltaic Manufacturing Technology Conference [Wolfgang Koch] 3-28-06

The deadline for online registration is April 30th for the 2nd International Advanced Photovoltaic Manufacturing Technology Conference, April 5th at SEMICON Europa 2006, Munich Congress Center, Germany. The conference is not in the Exhibition area, but in the Congress Center, with access only for registered participants (Exhibitors also have to be registered). Online registration is at: <https://register03.exgenex.com/GcmRegister/Index.aspx?C=114&M=50000047>. The revised agenda for the 2nd International Advanced Photovoltaic Manufacturing Technology Conference is on line at the SEMI homepage:

http://wps2a.semi.org/wps/portal/_pagr/128/_pa.128/461?&dFormat=application/msword&docName=P036771. A discussion about a Global Photovoltaic Solar Electricity Council will be moderated by Phil

LoPiccolo, Editor-in-Chief of Solid State Technology.

PV News 3-7-06

Paul Maycock has joined forces with The Prometheus Institute and Travis Bradford as they take over PV News. The March 2006 issue of PV News has been published by The Prometheus Institute and contains 2005 data on PV Cell Production. World PV Production in 2005 is given as 1727 MW, with Japan leading at 833 MW. The publication contains a breakdown by the top 14 cell producers, U.S. producers, Japanese producers, European producers, and rest-of-world producers. Subscription:

U.S. Congress In Action

House Appropriations Hearing [subject to change] 3-28-06

A House Committee on Appropriations, Subcommittee on Energy and Water Development and Related Agencies, hearing on DOE-Energy Supply and Conservation is set for April 5, 2006.

House Hearing on DOE [subject to change] 3-27-06

The House Appropriations Subcommittee on Energy & Water & Related Agencies has a hearing listed on DOE-Energy Supply and Conservation for March 30.

Letter Supporting Renewables 3-22-06

In a letter to House appropriators, a bipartisan group of 71 House members urged Congress to "support restoration of funding at least to last year's enacted levels for the U.S. Department of Energy's (DOE) Energy Efficiency and Renewable Energy (EE/RE) programs, while supporting the President's recommended increased funding levels for solar photovoltaics, wind, biofuels, fuel cells, and renewably based hydrogen". Letter at E&E News (<http://www.eenews.net>): http://www.eenews.net/features/documents/2006/03/22/document_daily_01.pdf

Alexander Karsner Confirmed 3-20-06

The Senate confirmed Alexander Karsner as DOE's Assistant Secretary for Energy Efficiency and Renewable Energy.

Solar Tax Credits 3-20-06

S. 2401, the Alternative Energy Extender Act, was introduced by Senators Charles Grassley and Max Baucus of the Senate Finance Committee. Among the federal tax credits it extends are the 30% tax credit for solar energy systems and the production tax credit for wind power. Story at RenewableEnergyAccess: <http://www.renewableenergyaccess.com/rea/news/story;jsessionid=33982CF28D3D8259CF1F43905E69D084?id=44378>

House Appropriations Hearing [subject to change] 3-17-06

The House Appropriations Subcommittee on Energy & Water & Related Agencies' hearing on the DOE 2007 budget request for energy supply and conservation programs was cancelled for March 16 and rescheduled for March 20.

Senate Energy and Natural Resources Committee on DOE Nominees 3-16-06

The Senate Energy and Natural Resources Committee approved the nominations of Alexander Karsner to be Assistant Secretary for Energy Efficiency and Renewable Energy and Raymond Orbach to be Under Secretary for Science.

Senate Appropriations Committee Hearing 3-14-06

The Subcommittee on Energy and Water hearing on the Energy Supply and Conservation Account scheduled for today was postponed.

Senate Energy & Natural Resource Committee Hearing [subject to change] 3-9-06

A hearing is listed for today to consider the nominations of Raymond Orbach to be Under Secretary for Science, and Alexander Karsner to be Assistant Secretary for Energy Efficiency and Renewable Energy.

Senate Appropriations Energy & Water Subcommittee Hearing [subject to change] 3-9-06

A hearing has been set for 14 March to examine the proposed budget estimates for FY 2007 for the Office of Science, the Energy Supply and Conservation account, and the Fossil Energy R&D account in DOE.

Secretary of Energy Testimony 3-9-06

The Secretary of Energy testified before the House Appropriations Energy & Water Development & Related Agencies subcommittee March 8, and testifies before the House Energy & Commerce Committee today on the FY 2007 DOE budget.

Senate Energy & Natural Resources Committee Hearing [subject to change] 3-9-06

A hearing to consider the pending nominations of Raymond Orbach to be Under Secretary for Science, Department of Energy, and Alexander Karsner to be Assistant Secretary of Energy Efficiency and Renewable Energy, as well as other matters, is listed for 10am March 9.

House Energy & Commerce Committee Hearing [subject to change] 3-7-06

The House Energy and Commerce Committee has scheduled a hearing for March 9 on the FY 2007 proposed DOE budget; Secretary Bodman will testify.

House Science Committee Hearing (subject to change) 3-6-06

The House Science Committee has scheduled a hearing March 9 to gather information on the proposed high-risk research arm of the Energy Department, the Advanced Research Projects Agency-Energy (ARPA-E).

Senate Energy & Natural Resources Hearings (subject to change) 3-3-06

The Senate Energy and Natural Resources Committee has scheduled a hearing to examine the goal of energy independence, on 7 March.

A hearing has been scheduled for 9 March to consider the nomination of Alexander Karsner to be Assistant Secretary of Energy Efficiency and Renewable Energy, and to consider the nomination of Raymond Orbach to be Under Secretary for Science, Department of Energy, as well as other nominations.

House Appropriations Committee Hearing (subject to change) 3-3-06

The House Appropriations Committee has scheduled a hearing on Energy & Water Development and Related Agencies, with the Secretary of Energy to testify on 8 March.

Manufacturing

Solar EnerTech Manufacturing 5-31-06

Solar EnerTech Corp. announced that significant progress has been made towards the rapid start-up of its new solar cell manufacturing plant located in Shanghai. Story at Solarbuzz: <http://www.solarbuzz.com/News/NewsASMA69.htm>
Solar Enertech Corp.: <http://www.solarenertech.com/>

CSG Holding Co. Investment 5-31-06

Chinese glass producer CSG Holding Co Ltd will invest \$150 million in the first phase of a polysilicon materials production project. Press through Solarbuzz at: <http://tinyurl.com/n6f2w>

Hoku Scientific Solar Plans 5-31-06

Hoku Scientific, Inc. announced that it plans to diversify its product offerings by manufacturing and selling solar modules in addition to manufacturing polysilicon. Hoku will explore basing the manufacturing operations in Singapore. Press at: <http://tinyurl.com/r9s6g>
Hoku Scientific:
<http://tinyurl.com/p6jpb>

Solar Energy Industrial Park, China 5-31-06

China-based Jinlong Industrial Group will establish a solar energy industrial park south of Shanghai with an investment of US\$258 million over 5 years. A 33.3-ha site will produce solar cells and modules with an annual capacity of 200 MWp. Press at: http://www.digitimes.com/bits_chips/a20060530A4012.html

Motech and MEMC Plant 5-25-06

Per this press, Motech Industries Inc. and MEMC Electronic Materials Inc. will jointly build a T\$100 million (\$3.1 million) silicon wafer plant. Story through Solarbuzz at: <http://today.reuters.com/business/newsarticle.aspx?type=technology&storyID=nTP304588&imageid=&cap>

House Appropriations on Energy and Water Development 5-17-06

The Full Committee of House Appropriations approved the FY 2007 Energy and Water Development Appropriations mark up, and the Committee report should be available shortly.

California Clean Tech Open [Laurent Pacalin] 5-16-06

The California Clean Tech Open is a nationwide business plan competition whose objective is to accelerate the deployment of clean technologies in energy efficiency, smart power, renewables, transportation, and water management. Each of 5 winners will receive \$100,000 in cash and professional services.

Applicants can submit their executive summary until May 31. Website:

<http://www.cacleantech.com/index.shtml?page=competitionworks&mode=1>

House Appropriations Committee Meeting 5-15-06

The House Committee on Appropriations meets May 16 to consider the FY 2007 Energy and Water Development Appropriations (and Homeland Security Appropriations).

House Energy & Water Development 2007 Appropriations 5-12-06

A meeting of the whole committee to consider the 2007 Energy and Water Development Appropriations (and Homeland Security Appropriations) is set for May 16.

House Energy & Water Development 2007 Appropriations Bill 5-11-06

Highlights of the Chairman's mark of the House Energy & Water Development 2007 Appropriations bill states that the bill fully funds the American Competitiveness Initiative, which would strengthen basic research by increasing funding for the DOE Office of Science. In addition, the bill supports the Advanced Energy Initiative by increasing funding for a variety of clean energy technologies, including biomass, hydrogen, solar, wind, and clean coal.

House Appropriations:

EERE Network News [Kevin Eber] 6-28-06

For the latest issue of EERE Network News, including coverage of Nanosolar, Florida tax incentives, Hawaii's new energy bills, the upcoming National Renewable Energy Conference, and other topics, see: <http://www.eere.energy.gov/news/enn.cfm>

NIST PV Test Facility 6-28-06

At its new Roof Photovoltaic Test Facility, NIST is monitoring the electrical and thermal performance of 7 residential systems designed for sloped roofs and 2 commercial building units designed for flat, industrial roofs. The data will be used to evaluate and improve computer algorithms for software simulation programs that predict the installed energy production of PV roof installations.

Solar Power Market Sector – New Report by Michael Rogol [PHOTON] 6-9-06

In July, PHOTON will publish “Solar Annual 2006: The gun has gone off”, a new report by Michael Rogol. A rough draft of the Executive Summary is available at: http://www.photon-consulting.com/executive_summary.htm. Michael Rogol previously published two popular “Sun Screen” solar market studies in 2004 and 2005. In this new report, based on interviews with over 400 solar power executives and policy makers in 10 geographic markets, Rogol and co-authors Paul Choi, Joel Conkling, Anthony Fotopoulos, Keith Peltzman and Scott Roberts express conviction that demand will significantly exceed supply through the end of the decade, that prices are likely to remain high, and that margins are likely to continue expanding for at least 3 more years. A review of 1,000+ solar companies, 400+ interviews, and 50+ site visits have convinced the authors that production will reach at least 10 GW by 2010. For more on this 100+ page report, available in July, see: <http://www.photon-consulting.com/>
To order the report, visit: <http://www.photon-consulting.com/shop/order.htm>

IREC Connecting to the Grid [Rusty Haynes] 6-8-06

The Interstate Renewable Energy Council’s June 2006 IREC “Connecting to the Grid” e-newsletter is available at <http://www.irecusa.org/connect/newsletter.html> covering interconnection, net metering and distributed generation at the state, federal and international levels.

Second PV Trade Mission to Spain [Edwin Koot, SolarPlaza] 6-12-06

The second "PV Business Tour Spain" organized by SolarPlaza is scheduled from 17 to 21 September and will focus on "Huertas Solares", solar farms. For information on the purpose and program, see:

<http://www.solarplaza.com/content/pagina/Second%20PV%20Trade%20Mission%20to%20Spain/43734>

NAVFAC Southwest Renewable Energy Forum [Utaw Cuseo-White] 6-9-06

NAVFAC Southwest will be hosting an Industry Forum focused on the acquisition and production of renewable energy. The intent of the Forum is to educate and inform industry of the Department of the Navy's acquisition process, opportunities, Navy and Marine Corps land assets, contractual and legal parameters, business and program goals, and the Navy's strategic and economic vision for renewable energy. The areas of consideration are Navy and Marine Corps installations in California, Arizona, and Nevada. The goal of the Forum is to solicit feedback from industry, government, and subject-matter experts so that the Department of the Navy can formulate a strategic business plan to integrate all aspects of renewable energy into its future plans. The Forum is set for 23 August 2006 in San Diego, California.

NAVFAC Website: https://portal.navy.mil/portal/page?_pageid=181,1&_dad=portal&_schema=PORTAL or

<http://tinyurl.com/jw4of>

A website for the Forum will be available in early July.

NAVFAC Southwest: <http://tinyurl.com/jw4of>

For questions regarding the Forum, contact Ms. Rea Carlos at (619) 532-1103, or email: rea.carlos@navy.mil, or Mr. Calvin Kawamura at (619) 532-1813, or email: calvin.kawamura@navy.mil

Evergreen Solar at Alternative Energy Conference 6-9-06

Evergreen Solar, Inc. announced that the company will be presenting at the Thomas Weisel Partners Alternative Energy Conference in New York on June 15. Evergreen press at: <http://phx.corporate-ir.net/phoenix.zhtml?c=123321&p=irol-newsArticle&ID=870526&highlight=> or <http://tinyurl.com/pgbaw>

Global School for Advanced Studies, Session on Advanced Solar Cell Research, Taiwan [R.P.H. Chang] 6-5-06

A dual mission of the Global School for Advanced Studies (GSAS) is to provide global leadership development for young researchers and foster new multidisciplinary collaborations in critical global challenge areas. The first GSAS Session, September 19-29, 2006, will focus on Advanced Solar Cell Research. Scholars from around the world will form multidisciplinary research teams to plan new collaborative research projects in solar cell development. The teams will meet in Taiwan for 10 days of lectures, mentoring and project development. The team with the best research project will win a 1-year Team Research Fellowship in Taiwan. Information at: <http://www.gsasprogram.org/solarcells.html>

Solar Program Review Meeting 6-1-06

The DOE Solar Energy Technologies Program Review Meeting is set for October 31 – November 2, 2006 in Denver, Colorado. For information, see the website at: http://www1.eere.energy.gov/solar/review_meeting/index.html

U.S. Congress In Action

Senate Energy & Water Development FY 2007 Appropriations 6-30-06

The Energy & Water Development Appropriations Committee report, including solar, is available. Next steps are a Senate vote, followed by a conference with the House.

Senate Energy & Water Development FY 2007 Appropriations 6-28-06

Per press following the Appropriations subcommittee meeting, the Solar budget request provides \$148M for solar energy, and the report provides \$9M from Solar funding and \$9M from Nuclear Energy to support a solar-hydrogen pilot plant authorized by EPACT. More information should be available shortly. The full committee meets June 29.

Senate Agriculture Appropriations, Renewables 6-26-06

The Senate Appropriations Subcommittee on Agriculture funded the Renewable Energy Systems and Energy Efficiency Improvements program at \$25 million. Story at RenewableEnergyAccess: <http://www.re-access.com/rea/news/story.jsessionid=2116AE1B2D946BFF8D32468D055BDA44?id=45236> or <http://tinyurl.com/pzter>

Solar America Initiative, Funding Opportunity Announcement 6-28-06

U.S. Department of Energy Secretary Samuel W. Bodman today announced \$170 million over three years (from FY '07 – '09) for cost-shared, public-private partnerships to advance solar energy technology. The solicitation is part of President Bush's Solar America Initiative (SAI). The \$170 million SAI Photovoltaic Systems R&D Technology Pathway Partnerships (TPP) Funding Opportunity Announcement (FOA) focuses on development, testing, demonstration, validation, and deployment of new PV components, systems and manufacturing equipment. TPPs will be industry-led and may include one or more companies, universities, national laboratories, and/or non-governmental organizations. Press at: <http://www.energy.gov/news/3790.htm>
