How to Use PowerFlex Charging Stations

powerflex.com

888.225.0270

Charging an electric vehicle is easy with PowerFlex.

Step 1

To get started, download and launch the PowerFlex mobile app.
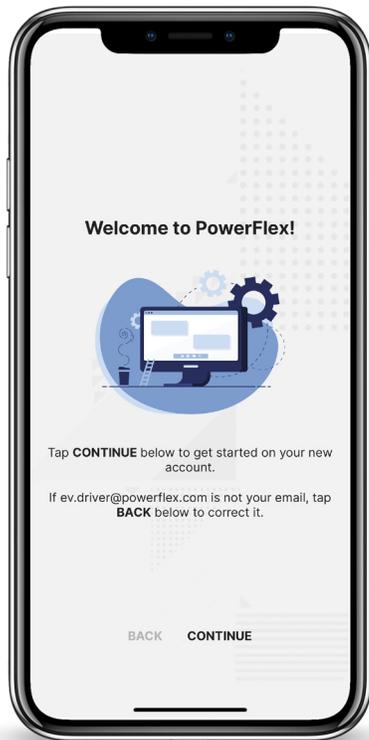

Step 2

Enter your email address to create an account.

If your workplace limits access to employees or offers discounts, sign up with your work address.
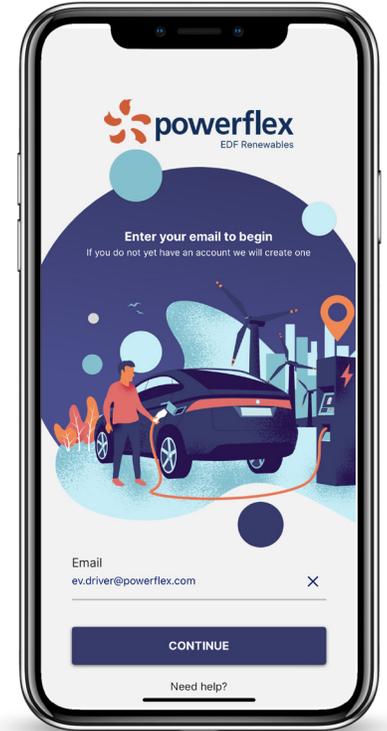

Step 3

Tap "Continue," then complete the fields on the next screens to complete the signup process.

Step 4

Enter vehicle information for the EV you wish to charge.

Charging an electric vehicle is easy with PowerFlex.

Step 5

Next, set your charging preferences. (Don't worry, you can always change them later.)

If desired, you can also set a per-kilowatt-hour price limit.

Set charging preferences
These preferences will be saved and used as your default charging settings. You can update them at any time.

2018 Tesla Model 3 Long Range

Step 6

Now add money to your account.

We support multiple payment options including PayPal, Apple Pay, and credit cards.

Add Funds
If you only charge at PowerFlex locations that allow free charging, skip this step!

Skip
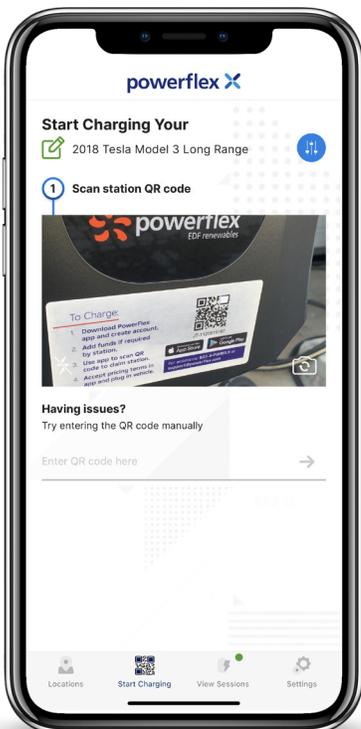

Step 7

If you need help locating an available charger, you can search for one right in the app.

Once at a charger, scan the QR code at the top of the unit.

Confirm station pricing, then tap "Accept."

Step 8

Once your car is plugged in, charging will begin.

Here you can monitor charging progress, energy price, and more.

It may take a few minutes for the amps to fully ramp up. Once charging is complete, simply unplug your car to end the session.
