

Federal Fleet Files

Vol. 2, No. 4 – January 2010

Highlighting the latest news and developments affecting Federal fleets.

Leading by Example: Strategic Sustainability Performance Plans

When signed on October 5, 2009, Executive Order (E.O.) 13514 made reducing greenhouse gas emissions a top priority for the Federal Government. Entitled *Federal Leadership in Environmental, Energy, and Economic Performance*, the executive order establishes an integrated strategy towards sustainability across all modes of operation. The Federal Government will lead by example toward a clean and efficient energy economy.

One requirement within E.O. 13514 is the development and implementation of an agency Strategic Sustainability Performance Plan (SSPP) that prioritizes agency actions based on lifecycle return on investment. Each SSPP is required to identify, among other things, “agency activities, policies, plans, procedures, and practices” as well as “specific agency goals, a schedule, milestones, and approaches for achieving results, and quantifiable metrics” relevant to the implementation of E.O. 13514.

Federal agencies should utilize their Energy Independence and Security Act (EISA) of 2007 Section 142 executable plan annual updates to meet the fleet portion of their SSPP. In addition, agency Annual Fleet Compliance Reports and Annual Office of Management and Budget (OMB) Transportation Scorecards contain a significant amount of information that can be used to populate the fleet portion of an SSPP. Each agency’s SSPP will be unique, and the exact timing of the SSPP submissions is yet to be determined. The Federal Energy Management Program (FEMP) recommends that agencies create the fleet management portion of these plans around January 1 to coincide with developing the EISA Section 142 annual update, the Annual Fleet Compliance Report, and OMB Transportation Scorecards.

Reminder: Annual Fleet Compliance Reports due February 15

Federal agencies are required to provide Congress an annual written compliance report on fleet management for the previous fiscal year. Using data collected at the beginning of each fiscal year in the Federal Automotive Statistical Tool (FAST), each agency must submit an annual report describing its compliance with Federal fleet requirements within the Energy Policy Act (EPAct) of 1992 and 2005 as well as progress made toward the fuel consumption goals outlined in E.O. 13423.

A hard copy of the report must be published on a publicly accessible Web site by February 15 and provided to Congress. Fleet managers must also send the Web site link of their report to the U.S. Department of Energy (DOE) via federal_fleets@ee.doe.gov for publication on the FEMP Web site at www.eere.energy.gov/femp/regulations/fleet_reports.html. This link must be sent to DOE by the **end of February** each year.

Save the Date: 2010 Regional EPAct Workshops

To continue building on the success of the 2009 Regional EPAct Workshops, DOE’s State and Alternative Fuel Provider Fleets Program is sponsoring a series of regional workshops in 2010. The workshops provide technical, regulatory, and networking support to assist EPAct-regulated fleets and alternative fuel stakeholders with overcoming deployment barriers.

The first EPAct regional workshop of 2010 is scheduled for **Friday, February 19, 2010**, in San Diego, California, at the Naval Training Center Promenade McMillan Conference Center. Five additional EPAct regional workshops and two workshops for retail station owners will follow.

More information on these workshops is available at www.eere.energy.gov/vehiclesandfuels/epact/workshops.html.

Greenhouse Gas Concentrations

Beginning in February, FEMP First Thursday Seminars will educate Federal agencies on the latest energy management requirements, best practices, and technologies. The first seminar will be an introduction to Executive Order (E.O.) 13514, providing an overview of definitions, baseline measurements, and other requirements. The training opportunity coincides perfectly with the development of agency Strategic Sustainability Performance Plans (SSPP) as required by E.O. 13514.

More information is available at www.femp.energy.gov/training/.

Alternative Fuel Finder

The National Renewable Energy Laboratory (NREL) maintains a database of alternative fuel stations nationwide through the DOE Alternative Fuels and Advanced Vehicles Data Center (AFDC). The list below shows new alternative fuel stations added to the database since last publication. **Unless otherwise noted, only open, publicly accessible stations that accept Wright Express are included.** Check the AFDC Alternative Fuel Station Locator for the most up-to-date information: www.afdc.energy.gov/afdc/locator/stations/.

The table this month includes Federal fueling centers added to the database as a result of the 2009 EISA 2007 Section 246 data call. In addition, the following Federal fueling centers are now pumping biodiesel blends of at least B20: Little Rock AFB; Central Arkansas Veterans Healthcare System; Yosemite National Park; National Zoological Park; Naval Station Great Lakes; and Chillicothe VA Medical Center.

Station Name	Street Address	City	State	Waivers ¹	Agencies Affected ²
E85					
Jet-Pep Store #90	3010 Noccalula Parkway	Attalla	AL	5	USDA, USPS
Jet-Pep Store #61	1460 Gateway Drive	Opelika	AL	3	Army, USPS
Jet-Pep Store #581	1007 E Willow Street	Scottsboro	AL	0	N/A
Jet-Pep Store #9	2310 Highway 31 S	Pelham	AL	36	USPS
Jet-Pep Store #72	7850 Highway 72 W	Madison	AL	7	Army, USAF, USMC, VA
GasXpress Exxon	2908 Memorial Drive	Atlanta	GA	40	Army, Navy, Treasury, USDA, USPS
Meijer Gas	1235 South Irish Road	Davison	MI	0	N/A
Farmers Union Oil Company	418 State Street	Warroad	MN	0	N/A
Platte-Clay Fuels	510 Sam Barr Drive	Kearney	MO	0	N/A
Mighty Joes Gas Station	1231 Route 206	Shamong	NJ	5	Army, USPS
Little Rock AFB ³	450 3rd Street	Little Rock AFB	AR	10	Army, USAF, Navy, USACE
Central Arkansas Veterans Healthcare System ³	2200 Fort Roots Drive	North Little Rock	AR	250	Army, Navy, USMC, USACE, DHS, GSA, DOI, Treasury, USDA, USPS
USMC Air Ground Combat Center ³		Twentynine Palms	CA	28	Navy, USMC
Grand Forks AFB ³	636 1st Avenue	Grand Forks	ND	24	Army, USACE, USDA, DOT
Beaufort MCAS ³	Moore Street	Beaufort	SC	30	Army, Navy, VA
USMC Recruitment Depot; Parris Island ³		Parris Island	SC	42	Army, USMC, DOL
USPS Madison Vehicle Maintenance Facility ³	3902 Milwaukee Street	Madison	WI	152	DHS, GSA, DOI, Navy, USDA, USPS
Liquefied Propane Gas (LPG)					
Franklin Auto Care	1510 East Franklin Boulevard	Gastonia	NC	0	N/A

¹ Number of EPA Act 2005 Section 701 waived vehicles within five miles of the station; information not applicable for biodiesel

² Federal agencies with EPA Act 2005 Section 701 waived vehicles within five miles of the station; information not applicable for biodiesel

³ Federally-owned fueling center. Please contact the appropriate agency for access.
