

Non-Energy Benefits Cause-and-Effect Fishbone Diagram

Instructions:

1. Write down energy efficiency measures recommendations near the head of the fishbone diagram.
2. Reflect on opportunities to talk to all or some of the contacts in these areas (bones).
3. Add areas that are missing.
4. Talk to contacts in these areas and ask them how energy-efficiency measures could impact or improve these areas.
5. Collect data on valuing non-energy benefits.
