c. Abstract:

The Home Interview Survey was conducted by mail and telephone county Twin Cities metropolitan area. The goal of the project to recruit 13,700 households from a sample of 30,000 household Samplings of Westport, Oregon. A county-stratification was used to ensure that the numbers of interviewed in a county reflected that county's proportion of household goals were based on the Metropolitan Council's 1990 Census data became available, the goals were adjusted using a random sample of households drawn from the entire seven- was to complete 9,600 surveys. To achieve this, a goal was set addresses and telephone numbers that were purchased from Survey households initially selected in the sample and also those households in the seven-county area. Initially, the county estimates of households by county. Subsequently, when the 1990 accordingly.

Data Description

1. *Area Studied:*
The counties of Ramsey, Hennepin, Dakota, Anoka, Washington, Carver, and Scott in Minnesota.
2. *Group studied:* Households
3. *Universe of Study:* Households within study area
4. *Number of Households:* 9,746
5. *Number of Entries:* 98,534
6. *Study Period:* 6/21/1990 - 12/14/1990
7. *Collection Period:* 6/21/1990 - 12/14/1990
8. *Data:* 3 .DBF files – Household, Person, and Trip.
9. *Smallest data unit:* Household member
10. *Smallest geo-unit:* Census Tract
11. *Sampling Method:* Review documentation
12. *Response Rate:* 91%
13. *Measure Tool:* N/A
14. *Weights:* Please see page 12 in the documentation for details
