SECTION I. APPLICABLE COMMERCIAL ITEMS (GOODS AND SERVICES) CLAUSES; APPLICABLE FAR CLAUSES; SUBSTITUTIONS

(a) The full text clauses are applicable to all Subcontracts and Purchase Orders for commercial items (goods and services). For Purchase Orders the following substitutions shall be made as appropriate in the context of the full text clauses:

(1) “Purchase Order for “Subcontract”; and
(2) “Vendor/Supplier” for “Subcontractor”.

(b) One or more Federal Acquisition Regulation (FAR) clauses are incorporated by reference as they exist on the effective date of this Subcontract or Purchase Order with the same force and effect as if they were in full text. The following substitutions shall be made as appropriate in the context of the FAR clauses incorporated by reference:

(1) “NREL” for “Government or DOE”;
(2) “Purchase Order” or “Subcontract” for “Contract”;
(3) “Vendor/Supplier” or “Subcontractor” for “Contractor”; and
(4) “NREL Subcontract Administrator” for “Contracting Officer”.

CLAUSE 1. ACCEPTANCE OF TERMS AND CONDITIONS (FEB 2009)

Derived from NREL 09.100-01

Acceptance of this Subcontract must be in accordance with and strictly limited to these Terms and Conditions. An attempted acknowledgment or acceptance which contains provisions conflicting or additional to these Terms and Conditions or which varies any terms and conditions shall have no force or effect. Performance by the Subcontractor without an executed acknowledgment shall be deemed to be performance in accordance with these Terms and Conditions.

CLAUSE 2. COMMERCIAL ITEMS—SUBCONTRACT TERMS AND CONDITIONS (SPECIAL) (JUL 2014)

Derived from FAR 52.212-4 (SEP 2013)

(Applies to the acquisition of commercial items)

(a) Inspection/Acceptance. The Subcontractor shall only tender for acceptance those items that conform to the requirements of this subcontract. NREL reserves the right to inspect or test any supplies or services that have been tendered for acceptance. NREL may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in subcontract price. If repair/replacement or reperformance will not correct the defects or is not possible, NREL shall require a refund of the price. In the alternative, NREL/Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. NREL must exercise its post-acceptance rights—

(1) Within a reasonable time after the defect was discovered or should have been discovered; and
(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) Assignment. The Subcontractor or its assignee may assign its rights to receive payment due as a result of performance of this subcontract to a bank, trust company, or other financing institution, including any federal lending agency in accordance with
the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes payment (e.g., use of the Government–wide commercial purchase card), the Subcontractor may not assign its rights to receive payment under this subcontract. If directed by the Department of Energy, NREL may, without notice, assign or transfer all its rights and obligations under this Subcontract to a successor Contractor, DOE, or its designee.

(c) Changes. Changes in the terms and conditions of this subcontract may be made only by written agreement of the parties.

(d) Subcontract Issues and Disputes. (Special) (Sep 2007)

(1) It is NREL’s practice to try to resolve all contractual issues by mutual agreement at the NREL Subcontract Administrator’s level, without litigation. Both parties hereby agree to explore all reasonable avenues for negotiations in order to avoid a dispute. Either party may provide written notice to the other party to conduct negotiations for a period not to exceed sixty (60) calendar days. After sixty (60) calendar days, if possibilities for negotiations have failed, either party shall have thirty (30) calendar days to request that the potential dispute be moved to Alternative Dispute Resolution (ADR). Within fifteen (15) calendar days after receiving a request to move to ADR, if ADR procedures are not acceptable to the non-moving party, a written explanation citing specific reasons for rejecting ADR as inappropriate for resolution of the dispute shall be provided to the moving party. If the parties are unable to agree on the application of ADR procedures to resolve the potential dispute or are unable to satisfactorily resolve the dispute using ADR procedures for a period not to exceed ninety (90) calendar days (or such longer period as mutually agreed in writing), the parties shall resume the formal process authorized in this clause.

(2) The parties agree that the appropriate forum for litigation of any dispute pertaining to this subcontract shall be a court of competent jurisdiction as follows:

(i) Subject to paragraph (d) (2) (ii) of this clause, any such litigation shall be brought and prosecuted exclusively in Federal District Court; with venue in the United States District Court of Colorado in Denver, Colorado.

(ii) Provided, however, that in the event that the requirements for jurisdiction in any Federal District Court are not present, such litigation shall be brought in a court of competent jurisdiction in the county of Jefferson and State of Colorado.

(3) Any substantive issue of law in such litigation shall be determined in accordance with the body of applicable federal law relating to the interpretation and application of clauses derived from Federal Acquisition Regulation and the Department of Energy Acquisition Regulation that implement and supplement the FAR. If there is no applicable federal law, the law of the State of Colorado shall apply in the determination of such issues. Conflict of law provisions shall not determine applicable governing law. Nothing in this clause shall grant to the Subcontractor by implication any statutory rights or remedies not expressly set forth in this subcontract.

(4) There shall be no interruption in the prosecution of the work, and the Subcontractor shall proceed diligently with the performance of this subcontract pending final resolution of any subcontractual issues, disputes, or litigation arising under or related to this subcontract between the parties.
hereto or between the Subcontractor and lower-tier Subcontractors or suppliers.

(5) The Contract Disputes Act of 1978 (41 U.S.C. Sections 60 1-613) shall not apply to this subcontract; provided, however, that nothing in this clause shall prohibit NREL, in its sole discretion, from sponsoring a dispute of the Subcontractor for resolution under the provision of its prime contract with DOE. In the event that NREL so sponsors a dispute at the request of the Subcontractor, the Subcontractor shall be bound by the decision of the cognizant DOE Contracting Officer to the same extent and in the same manner as NREL.

(6) Any disputes relative to intellectual property matters will be governed by other provisions of this subcontract.

The Subcontractor shall notify the NREL Subcontract Administrator in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the NREL Subcontract Administrator of the cessation of such occurrence.

In the event that the Subcontractor or its lower-tier Subcontractors supplies or delivers suspect or counterfeit items or parts, such items or parts shall be impounded by NREL, or the Subcontractor shall remove the items or parts as directed by the NREL Subcontract Administrator. The Subcontractor shall promptly replace the counterfeit or suspect items or parts with supplies acceptable to NREL and the Subcontractor shall be liable for all costs relating to impoundment, removal, and replacement.

The following clauses are applicable to subcontracts and purchase orders for commercial items (goods and services) that require the Subcontractor or its lower-tier Subcontractors, or other persons representing the Subcontractor, to perform work on NREL-operated facilities or government-owned or -leased properties.

CLAUSE 9. SECURITY AND ACCESS REQUIREMENTS FOR SUBCONTRACT WORK PERFORMED AT NREL OPERATED FACILITIES (SPECIAL) (JAN 2009)

Derived from NREL 08.100-02

(Applies to all subcontracts where the Subcontractor or lower-tier Subcontractors, and their employees, officers, agents, or other persons representing the Subcontractor, will perform work on NREL-operated facilities or government-owned or -leased properties.)

(a) Security requirements.

(1) NREL has established security requirements to govern access onto NREL operated facilities or government-owned or -leased properties (hereafter “NREL operated facilities”) by the Subcontractor’s employees (and its lower-tier Subcontractors’ employees), officers, agents, and any other persons representing the Subcontractor.

   (i) The introduction of certain “controlled” commodities and/or activities on the NREL operated facilities is prohibited. Prohibited articles include firearms, explosive devices, incendiary devices, dangerous weapons or materials, controlled substances (illegal drugs), alcoholic beverages, and livestock. NREL operated facilities and DOE-owned or -leased property are closed to all hunting.

(2) As a condition of entry to NREL operated facilities, the Subcontractor agrees to permit NREL Security personnel to search the Subcontractor’s employees (and its lower-tier Subcontractors’ employees) and their officers and agents’ vehicles, packages, tool boxes, or other containers for the purpose of preventing prohibited articles to be brought onto NREL operated facilities or to detect or deter the unauthorized removal of Government property from NREL operated facilities.

(3) The Subcontractor is solely responsible for the security of the Subcontractor’s employees (and its lower-tier Subcontractors’ employees) and their officers and agents’ materials and equipment at the NREL operated facilities. Any security system the Subcontractor may elect to use (fences, keys, alarms, etc.) must be coordinated with the NREL Technical Monitor.

(4) The Subcontractor is responsible to advise the NREL Technical Monitor promptly of any non-routine events, occurrences, incidents, accidents, etc., particularly in situations involving lost-time accidents and ambulance runs, occurring under this subcontract.

(5) NREL Security reserves the right to revoke site access authorization for any person violating NREL or DOE security policies and procedures.

(b) Access requirements for U.S. citizens.

(1) Access to NREL operated facilities is controlled in accordance with DOE’s security requirements. The Subcontractor shall ensure that any of the Subcontractor’s employees (and its lower-tier Subcontractors’ employees) and their officers and agents who will enter onto the NREL operated facilities are specifically authorized site access under the NREL requirements set forth
in the NREL Access Control Policy and Program, including identification, badging, and registration by NREL Security. A two-week advance notice to NREL Security processed through the NREL Subcontract Administrator is required prior to access by U.S. citizens.

(c) Access requirements for persons who are not U.S. citizens.

(1) The Subcontractor shall ensure that any of the Subcontractor’s employees (or its lower-tier Subcontractors’ employees), officers, and agents who will enter onto NREL operated facilities and who are not U.S. citizens meet the requirements set forth in NREL’s Foreign National Management Policy and Program, including: (a) appropriate work authorization documentation (i.e. Visa); (b) completion of an NREL Foreign National Data Card; and (c) NREL Manager-level approval.

(2) Foreign Nationals from DOE-designated “Sensitive Countries” will be processed for a federal background check. This process requires a minimum of two (2) weeks. Foreign Nationals from DOE-designated “Terrorist Supporting Countries” will not be allowed. The Subcontractor should contact the NREL Subcontract Administrator to obtain the most current listing of “Sensitive Countries” and “Terrorist Supporting Countries.”

(i) It is the Subcontractor’s responsibility to obtain and provide all necessary information and documentation to meet NREL, DOE, and federal requirements regarding Subcontractors’ employees (or its lower-tier Subcontractors’ employees), officers’, and agents’ work authorization and identification to the NREL Technical Monitor and the NREL Subcontract Administrator to meet the appropriate time frames for NREL Security to process and approve the request for access. Any person(s) denied access by NREL Security or DOE shall not be assigned by the Subcontractor to enter onto or perform subcontract work at NREL operated facilities.

(3) Prior to the initiation of a subcontract that requires entry onto NREL operated facilities, the Subcontractor shall provide to the NREL Subcontract Administrator advance notice and necessary evidence (including Visa types and expiration dates) that legally sufficient work permits have been obtained from the U.S. Citizenship and Immigration Services. Further, the Subcontractor is responsible to ensure that such permits are properly maintained for any of the Subcontractor’s employees (and its lower-tier Subcontractors’ employees) and their officers and agents who are not U.S. citizens for the duration of subcontract work at NREL operated facilities.

(4) After the Subcontractor (and its lower-tier Subcontractors) has commenced work under the subcontract, the Subcontractor shall provide to the NREL Subcontract Administrator the same advance notice and necessary evidence (including Visa types and expiration dates) for all subsequently assigned individuals who are not U.S. citizens who will enter onto NREL operated facilities.

(d) Access Requirements for all persons.

(1) All persons entering NREL operated facilities must display a valid NREL– or DOE– issued identification badge. The Subcontractor is responsible to coordinate badge requirements for entrance onto NREL operated facilities for all the Subcontractor’s employees (and lower-tier Subcontractors’ employees) and their officers and agents to ensure the display and return of all issued badges.
(2) The Subcontractor is responsible to coordinate with the NREL Technical Monitor all vehicle parking requirements needed to perform the subcontract work on the NREL operated facilities. Vehicle access by Subcontractors and other visitors to the NREL operated facilities is controlled on a 24-hour, 7-day per week basis.

(3) The Subcontractor is cautioned that effective January 1, 2007, the Colorado Revised Statutes (CRS 8-2-122) require employers that transact business in Colorado to comply with employment verification requirements to affirm that the employer has examined the legal work status of newly-hired employees and has retained file copies of the documents required by the Federal Immigration Reform and Control Act (8 USC 1324a).

(c) The Subcontractor shall repair any damage to those facilities, including those that are the property of a third party, resulting from failure to comply with the requirements of this subcontract or failure to exercise reasonable care in performing the work. If the Subcontractor fails or refuses to repair the damage promptly, the NREL Subcontract Administrator may have the necessary work performed and charge the cost to the Subcontractor.

(d) The Subcontractor shall be responsible for reasonable costs associated with NREL-directed emergency response, cleanup, and disposal of hazardous material, chemical, or petroleum spills caused by the Subcontractor or any of its lower-tier Subcontractors during performance of work required under this subcontract. Upon determination of reasonable costs to be back charged to the Subcontractor resulting from such hazardous material spills, the NREL Subcontract Administrator shall provide the Subcontractor with written notice of the work performed and the costs to be charged to the Subcontractor. The back charge shall be set off against the subcontract price and the subcontract shall be modified in writing. NREL has the right to set off such costs against any amount payable to the Subcontractor whether or not in connection with this subcontract.

(e) The rights and remedies of NREL/Government in this clause are in addition to any other rights and remedies provided by law or under this subcontract.

CLAUSE 15. PROTECTION OF NREL/GOVERNMENT BUILDINGS, EQUIPMENT, AND VEGETATION (APR 1984)
Derived from FAR 52.237-2
(Appplies to service subcontracts not involving construction to be performed on Government-owned or -leased facility.)
The Subcontractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation on NREL/Government installation. If the Subcontractor’s failure to use reasonable care causes damage to any of this property, the Subcontractor shall replace or repair the damage at no expense to NREL/Government as the NREL Subcontract Administrator directs. If the Subcontractor fails or refuses to make such repair or replacement, the Subcontractor shall be liable for the cost, which may be deducted from the subcontract price.

CLAUSE 16. WHISTLEBLOWER PROTECTION FOR SUBCONTRACTOR EMPLOYEES (DEC 2000)
Derived from DEAR 952.203-70 (FD)
(Appplies to subcontracts for work directly related to activities at NREL-operated facilities or Government-owned or -leased properties.)

(a) The Subcontractor shall comply with the requirements of “DOE Contractor Employee Protection Program” at 10 CFR Part 708 for work performed on behalf of NREL directly related to activities at DOE-owned or -leased sites.

(b) The Subcontractor shall insert or have inserted the substance of this clause, including this paragraph (b) in subcontracts at all tiers, for subcontracts involving work performed on behalf of NREL directly related to activities at DOE-owned or -leased sites.
CLAUSE 17. INTEGRATION OF ENVIRONMENT, SAFETY, AND HEALTH INTO WORK PLANNING AND EXECUTION (DEC 2000)

Derived from DEAR 970.5223-1 (FD)
(Applies to all subcontracts where the Subcontractor or lower-tier Subcontractors and their employees, officers, agents, or other persons representing the Subcontractor will perform complex or hazardous work on NREL-operated facilities or Government-owned or -leased properties.)

(a) For the purposes of this clause:
   (1) “Safety” encompasses environment, safety, and health, including pollution prevention and waste minimization; and
   (2) “Employees” include lower-tier Subcontractor employees.

(b) In performing work under this subcontract, the Subcontractor shall perform work safely, in a manner that ensures adequate protection for employees, the public, and the environment, and shall be accountable for the safe performance of work. The Subcontractor shall exercise a degree of care commensurate with the work and the associated hazards. The Subcontractor shall ensure that management of environment, safety and health (ES&H) functions and activities becomes an integral but visible part of the Subcontractor’s work planning and execution processes. The Subcontractor shall, in the performance of work, ensure that:
   (1) Line management is responsible for the protection of employees, the public, and the environment. Line management includes those Subcontractor and lower-tier Subcontractor employees managing or supervising employees performing work.
   (2) Clear and unambiguous lines of authority and responsibility for ensuring ES&H are established and maintained at all organizational levels.
   (3) Personnel possess the experience, knowledge, skills, and abilities that are necessary to discharge their responsibilities.
   (4) Resources are effectively allocated to address ES&H, programmatic, and operational considerations. Protecting employees, the public, and the environment is a priority whenever activities are planned and performed.
   (5) Before work is performed, the associated hazards are evaluated and an agreed-upon set of ES&H standards and requirements are established which, if properly implemented, provide adequate assurance that employees, the public, and the environment are protected from adverse consequences.
   (6) Administrative and engineering controls to prevent and mitigate hazards are tailored to the work being performed and associated hazards. Emphasis should be on designing the work and/or controls to reduce or eliminate the hazards and to prevent accidents and unplanned releases and exposures.
   (7) The conditions and requirements to be satisfied for operations to be initiated and conducted are established and agreed-upon by NREL/Government and the Subcontractor. These agreed-upon conditions and requirements are requirements of the subcontract and binding upon the Subcontractor. The extent of documentation and level of authority for agreement shall be tailored to the complexity and hazards associated with the work and shall be established in a Safety Management System.

(c) The Subcontractor shall manage and perform work in accordance with a documented Safety Management System (System) that fulfills all conditions in paragraph (b) of this clause at a minimum. Documentation of the System shall describe how the Subcontractor will:
   (1) Define the scope of work;
   (2) Identify and analyze hazards associated with the work;
(3) Develop and implement hazard controls;
(4) Perform work within controls; and
(5) Provide feedback on adequacy of controls and continue to improve safety management.

(d) The System shall describe how the Subcontractor will establish, document, and implement safety performance objectives, performance measures, and commitments in response to NREL/DOE program and budget execution guidance while maintaining the integrity of the System. The System shall also describe how the Subcontractor will measure system effectiveness.

(e) The Subcontractor shall submit to the NREL Subcontract Administrator documentation of its System for review and approval. Dates for submittal, discussions, and revisions to the System will be established by the NREL Subcontract Administrator. Guidance on the preparation, content, review, and approval of the System will be provided by the NREL Subcontract Administrator. On an annual basis, the Subcontractor shall review and update, for NREL’s approval, its safety performance objectives, performance measures, and commitments consistent with and in response to NREL/DOE program and budget execution guidance and direction. Resources shall be identified and allocated to meet the safety objectives and performance commitments as well as maintain the integrity of the entire System. Accordingly, the System shall be integrated with the Subcontractor’s business processes for work planning, budgeting, authorization, execution, and change control.

(f) The Subcontractor shall comply with, and assist NREL/DOE in complying with, ES&H requirements of all applicable laws and regulations, and applicable directives identified in the clause of NREL’s Prime Contract entitled "Laws, Regulations, and DOE Directives." The Subcontractor shall cooperate with Federal and non-Federal agencies having jurisdiction over ES&H matters under this subcontract.

(g) The Subcontractor shall promptly evaluate and resolve any noncompliance with applicable ES&H requirements and the System. If the Subcontractor fails to provide resolution or, if at any time, the Subcontractor's acts or failure to act causes substantial harm or an imminent danger to the environment or health and safety of employees or the public, the NREL Subcontract Administrator may issue an order stopping work in whole or in part. Any stop work order issued by the NREL Subcontract Administrator under this clause (or issued by the Subcontractor to a lower-tier Subcontractor in accordance with paragraph (i) of this clause) shall be without prejudice to any other legal or contractual rights of NREL/Government. In the event that the NREL Subcontract Administrator issues a stop work order, an order authorizing the resumption of the work may be issued at the discretion of the NREL Subcontract Administrator. The Subcontractor shall not be entitled to an extension of time or additional fee or damages by reason of, or in connection with, any work stoppage ordered in accordance with this clause.

(h) Regardless of the performer of the work, the Subcontractor is responsible for compliance with the ES&H requirements applicable to this subcontract. The Subcontractor is responsible for flowing down the ES&H requirements applicable to this subcontract to subcontracts at any tier to the extent necessary to ensure the Subcontractor’s compliance with the requirements.

(i) The Subcontractor shall include a clause substantially the same as this clause in lower-tier subcontracts involving complex or hazardous work on site at an NREL operated facility or Government-owned or-leased properties. Such lower-tier subcontracts shall provide for the right to stop work under the conditions described in paragraph (g) of this clause. Depending on the complexity and hazards associated
with the work, the Subcontractor may choose not to require the lower-tier Subcontractor to submit a Safety Management System for the Subcontractor's review and approval.

**CLAUSE 18. SUSTAINABLE ACQUISITION PROGRAM (SPECIAL) (MAR 2011)**

*Derived from DEAR 970.5223-7 (OCT 2010) (FD)*

*(Applies to subcontracts or purchase orders for supplies or services that support operation of NREL, exceed $150,000, and offer opportunities for the acquisition of energy efficient or environmentally sustainable supplies or services.)*

(a) Pursuant to Executive Order 13423, Strengthening Federal Environmental, Energy and Transportation Management, and Executive Order 13514, Federal Leadership in Environmental, Energy, and Economic Performance, NREL is committed to managing its facilities in an environmentally preferable and sustainable manner that will promote the nature environment and protect the health and well being of its employees and Subcontractors. In the performance of providing products or services under this subcontract or purchase order, the Subcontractor shall provide products or services in a manner that promotes the natural environment, reduces greenhouse gas emissions and protects the health and well being of NREL employees, Subcontractor and visitors.

(b) Green purchasing or sustainable acquisition has several interacting initiatives. The Subcontractor must comply with initiatives that are current as of the subcontract or purchase order award date. NREL may require compliance with revised initiatives from time to time. The initiatives important to these Executive Orders are explained on the following Government or Industry Internet Sites:

1. Recycled Content Products are described at [http://epa.gov/cpg](http://epa.gov/cpg)
4. Energy efficient products are at [http://www.femp.energy.gov/procurement](http://www.femp.energy.gov/procurement) for FEMP designated products
5. Environmentally preferable and energy efficient electronics including desktop computers, laptops and monitors are at [http://www.epeat.net](http://www.epeat.net) the Electronic Products Environmental Assessment Tool (EPEAT) the Green Electronics Council site
6. Greenhouse gas emission inventories are required, including Scope 3 emissions which include contractor emissions. These are discussed at Section 13 of Executive Order 13514 which can be found at [http://www.archives.gov/federal-register/executive-orders/disposition.html](http://www.archives.gov/federal-register/executive-orders/disposition.html)
8. Water efficient plumbing products are at [http://epa.gov/watersense](http://epa.gov/watersense)

The Subcontractor may request an equitable adjustment to the terms of its subcontract or purchase order using the procedures in the applicable Changes clause in the relevant Appendix B.

(c) The clauses at FAR 52.223-2, Affirmative Procurement of Bio based Products under Service and Construction Contracts, 52.223-15, Energy Efficiency in Energy Consuming Products, and 52.223-17 Affirmative Procurement of EPA-Designated Items in Service and Construction Contracts, require the use of products that have bio based content, are energy efficient, or have recycled content. To the extent that the services provided by the Subcontractor require provision of any of the above
types of products, the Subcontractor must provide the energy efficient and environmentally sustainable type of product unless that type of product—

(1) Is not available;
(2) Is not life cycle cost effective (or does not exceed 110% of the price of alternative items if life cycle cost data is unavailable), EPEAT is an example of lifecycle costs that have been analyzed by DOE and found to be acceptable at the silver and gold level;
(3) Does not meet performance needs; or,
(4) Cannot be delivered in time to meet a critical need.

(d) In the performance of this subcontract, the Subcontractor shall comply with the requirements of Executive Order 13423, Strengthening Federal Environmental, Energy and Transportation Management, (http://www.epa.gov/greeningepa/practices/eo13423.htm) and Executive Order 13514, Federal Leadership in Environmental, Energy, and Economic Performance (http://www.archives.gov/federal-register/executive-orders/disposition.html).

The Subcontractor shall also consider the best practices within the DOE Acquisition Guide, Chapter 23, Acquisition Considerations Regarding Federal Leadership in Environmental, Energy, and Economic Performance. This guide includes information concerning recycled content products, bio based products, energy efficient products, water efficient products, alternative fuels and vehicles, non-ozone depleting substances and other environmentally preferable products and services. This guide is available on the Internet at: http://management.energy.gov/documents/AcqGuide23pt0Rev1.pdf.

(e) Reserved.

(f) In complying with the requirements of paragraph (c) of this clause, the Subcontractor, working through the NREL Subcontract Administrator, shall coordinate its activities with and submit required reports to the NREL Sustainability Administrator.

(g) The Subcontractor shall prepare and submit performance reports, if required, using prescribed NREL formats made available to the Subcontractor from the NREL Sustainability Administrator, on September 30 of the year of performance, on matters related to the acquisition of environmentally preferable and sustainable products and services. This is a material delivery under the subcontract or purchase order. Failure to perform this requirement may be considered a failure that endangers performance of this subcontract and may result in termination for default.

(h) The Subcontractor will comply with the procedures in paragraphs (c) through (f) regarding the collection of all data necessary to generate the reports required under paragraphs (c) through (f), and submit the reports directly to the NREL Sustainability Administrator.

The Subcontractor will advise the NREL Subcontract Administrator if it is unable to procure energy efficient and environmentally sustainable items and cite which of the reasons in paragraph (c) apply.

The reports may be submitted at the conclusion of this subcontract or purchase order term provided that the delivery term is not multi-year in nature. If the delivery term is multi-year, the Subcontractor shall report its accomplishments for each fiscal year ending on September 30th in a manner and at a time or times acceptable to both parties. Failure to comply with these reporting requirements may be considered a breach of contract with attendant consequences.
